FOLDING MACHINE

The Central Jet is a simple, economical and versatile folding machine designed exclusively for hotel towels. A product of Central Finishing Systems of America, the Jet offers a complete range of fold configurations. It performs lateral folds by airblast over adjustable templates; two crossfolds are accomplished with air between pinchrolls. A drop stacker delivers either to the rear of the machine or back to the operator.

PERSONAL GROOMING

Baci by Benti-craft presents its complete line of makeup and shaving mirrors in a new full-color catalog. Available in two sizes, the catalog features complete information on each of the eight Baci styles. All Baci products are manufactured in the U.S. using the finest electrical, mechanical and optical components. Models are available lighted or unlighted with brass or chrome trim.

SOFTER NAPKINS

Made by Best of Premia fabric by Milliken, Softer Yet napkins last five times longer than cotton, three times longer than blends.

Napkins maintain their brightness, feeling luxurious and absorbent to the touch, even after hundreds of washings. Minimal shrinkage and no linting are among other benefits of this new nappy product.

WIRELESS ROOM SAFE

Monsberg Safe Systems introduces the Revenue Access Code (RAC) safe, designed specifically to eliminate wiring between hotel guestrooms and the requisite centrally located computer. Ideal for existing properties, RAC installation requires no downtime, carpentry or extensive electrical work.

ECO-FRIENDLY AMENITIES

Wesco International offers the aromatherapeutic and all-natural Smith & Vandiver Botanicals line. Packaged in the exclusive Paper Bottle, an environmentally friendly alternative to the plastic amenities container, the line features shampoo, bath and shower cream, shaving lotion, and body cream and suntan oil, all contained in paper bottles, vegetable-based, French milled soaps and fine glycerine soaps, and a matching shower cap and sewing kit in recycled paper boxes.
